*Experience with a
Fresh Perspective*

Our campaign platform stems from a genuine desire to do what is best for the residents of Deer Park. Our varied business and governmental experience give us a balanced perspective that will allow us to lead the Village in a direction that will:

- **improve property values** while avoiding the creation of a property tax.
- attract **quality commercial developments** that will increase revenue potential without detracting from our small-town appeal.
- maintain a **healthy financial balance sheet** that will provide for emergencies as well as day-to-day operations.
- continue to **expand the Village's road and drainage** improvement program without taking on debt.
- foster **warm relationships** with area villages and intergovernmental agencies.

We place a high value on collaboration, negotiation and communication, and we come to this campaign with fresh energy, fresh ideas and a willingness to work hard.

We pledge to work for open, responsible and responsive Village government and we're asking for your vote on April 7.

We are raising our family in Deer Park because we believe it to be a wonderful community. With its open spaces, yet neighborhood feel, it provides a safe and beautiful setting. As trustee, I will uphold the integrity of the land in Deer Park keeping the open spaces open and requiring buildable land to be built to the quality and standards we currently have in place. I grew up in the area and I have seen many of the changes that have taken place, so many for the betterment of Deer Park. As trustee, I would like to continue that tradition and give back to the community that my family and I call home.
